Dear Parents;

We are fast approaching the end of the school year and beginning to make plans for the coming year. To assist with your family's planning to do the same, this communication provides details about Saint Patrick Catholic School's required textbooks for 2011-2012. Attached you will find a list of books for each grade level, as well as information about textbook providers and buyers.

Parents of students in grades kindergarten through eighth grade are responsible for the costs of books and similar incidental costs. Once again, the school has made arrangements with MBS Direct, a textbook provider, as an optional source for parents to purchase and sell textbooks. Information about the services of MBS and other vendors is attached for your convenience. Please note that you have the option to purchase your textbooks from any vendor and source available to you. If you elect to use sources other than MBS to purchase student textbooks, then you are required to purchase the correct editions of student textbooks from the textbook list provided by the school. Failure to comply may result in a charge for a new book of the correct edition.

Student Scholastic and Virginia and Social Studies Weekly Magazine subscriptions, as well as certain books only sold to schools at the lowest cost, will be purchased by the school and then billed to student accounts. Furthermore, in an effort to ensure that students use only unused new workbooks, Saint Patrick Catholic School will purchase all student consumable (workbooks) books and bill student accounts. If a family is able to purchase new consumables at a lesser cost from a source other than Saint Patrick Catholic School, the family must notify the business office to avoid a charge to the student's account.

Attached is the textbook list for the 2011-2012 school year including titles, ISBN numbers, and approximate costs for new books (without shipping and handling costs). Please refer to the key at the bottom of each page for the meaning of the color highlights. Changes reflected from last year to this year's attached list were a result of the faculty's annual evaluation of textbook use to determine the best resources for student instruction.

You will see that social studies textbooks for fifth grade have been added. After a year of research and using a variety of print and electronic media, an appropriate resource has been identified and will now be a required textbook. To better support the implementation of Singapore Mathematics, workbooks and textbooks for grades k-5 will now be considered consumable. The required textbook costs for most grades will remain unchanged and we will continue to work with parents to create an efficient, affordable system that will best serve families. If you are interested in serving on a textbook subcommittee to develop an in-house system that is primarily supported by parents, please let me know of your interest.
